**PAPER 2**

**2 HOURS**

**INSTRUCTIONS TO CANDIDATES**

This paper consists of **two** compulsory items.

2. Pato has a garden where he is practicing mixed cropping. The crops have been doing well until of recent when he went to inspect his garden and found his crops with undesirable symptoms. He called the extension officer who instructed him to pick samples from his field and deliver them to the extension officer's office. He followed the instructions and sampled the crops in the garden as represented by **A. B. C**. When he reached the office, he was told that the extension officer got an emergency call for the workshop where he will spend 2 weeks. When Pato's stores were visited sample **R** was picked.

Task ; Observe the specimens from Pato's garden and advise him on the course of action to save his garden.
